skin care products and treatments

GEMMED PLANT

Renowned dermatologist **Kenneth Beer, MD**, has developed numerous products for every skin type and condition. The **White Bamboo Exfoliator** is a clay-based scrub designed to suit any skin type. The cutting-edge formula contains bamboo wrapped crystals that gently resurface the outer layers of skin and aid in correcting daily environmental damage. The White Bamboo Exfoliator also helps to purify skin, minimize pores and balance excess oils, says the company. www.kennethbeermd.com
